**14TH SUNDAY IN ORDINARY TIME , YEAR C**

**COMMENTARY ON READINGS**

**First Reading:** God reigns in the world and in the Church. He nourishes us His children and He consoles and comforts us. In Him we find love, peace and joy. (Isaiah 66:10-14)

**RESPONSORIAL PSALM (Ps. 66)**

“ Let all the earth cry out to God with joy.”

Shout joyfully to God, all the earth, sing praise to the glory of his name; proclaim his glorious praise. Say to God, "How tremendous are your deeds!" **Res.**

"Let all on earth worship and sing praise to you, sing praise to your name!" Come and see the works of God, his tremendous deeds among the children of Adam. **Res.**

He has changed the sea into dry land; through the river they passed on foot; therefore let us rejoice in him. He rules by his might forever. **Res.**

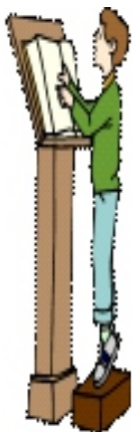

Hear now, all you who fear God, while I declare what he has done for me. Blessed be God who refused me not my prayer or his kindness! **Res.**

**Second Reading:** Paul refers to what he had to suffer as a missionary. Much of his pain was caused by his fellow Jews who did not accept his vision of the new Israel of God which is the Church. (Galatians 16:14-18)

**Gospel:** Jesus appoints and sends out seventy-two disciples to preach the Word in every town and place where He Himself would later visit. Their mission was very successful.. (Luke 10:1-12, 17-29)

**WEEKDAY READINGS & MEMORIALS

**CHRIST THE KING CHURCH**

**HEALTH CORNER**

**(Occupational Health, Safety & Environment) TECHNOLOGY IN MANUFACTURING AND WORKPLACE SAFETY CULTURE**

....continuing from last week

What should I take into account when introducing new technology?

The introduction of technology in the manufacturing workplace is not without risk. Whilst it can offer an increase in safety, failure to consider the practicalities of hazards can render the new technology useless.

My top ten tips are;

**2. Who will control the risk?**

1. The risks of implementing new technology into manufacturing are often misunderstood. Human error cannot always be eliminated. Managers need to understand the risks and implement control measures. Whether you decide to implement industrial robotics, increase the use of nanotechnology or develop a manufacturing execution system, possible malfunction need to be contemplated and planned for effectively.

- to be continued

**DIVINE MERCY CHURCH**
